

**Vestry Report— Greg Cuprak, Senior Warden
Vestry Meeting, May 16, 2011**

Mother Margie led the Vestry in a Bible study.

Our Parish finances for this year remain positive even with the withdrawal of some pledges.

Quarterly reports were made by the Church School, Communications and Parish Life committees.

The Vestry authorized \$5,780 for the purchase of a new modern copier to replace the existing un-maintainable nine year old machine.

There will be a parish —campfire meeting after the Sunday, May 22nd 10:30 service.

Kevin Lane has accepted the position of Junior Warden.

After the 9:30 Service on Pentecost Sunday, June 12th, there will be a Strawberries and Ice Cream Social with Travelogue presentation.

The New Castle County sewer upgrade project will be coming to St. Albans. Current plans have the new sewer line running from the rear of our parking lot up to it's entrance. Work will not happen until late fall. When the work does happen, the contractor will allow enough parking for our Sunday services. The county will be seeking a 20 foot easement on either side of the newly installed sewer lines and will be negotiating with the church an appropriate compensation for this restriction.
